

# Practice Exercise 7

## Model Management

Objective Domains that are covered within this practice exercise are:

- 5.6a Understand and use purge
- 5.6c Assess review warnings in Revit
- 5.6b Understand and use the audit and compact tools

Video resources that may help with this practice exercise are:

- Model management
- Audit and compact model

The purpose of this exercise is to provide the students with an example of how to manage a model. Students will experience what it is like to take on the role of a BIM manager without any of the risks associated with purging and auditing on a real project.

**The following steps need to be completed:**

1. Start the Open command and select **Lesson 07 - Model Management.rvt**. Make sure the Audit checkbox is enabled and run an audit on the file.
2. From the Manage tab, select Purge Unused to purge the model.
3. From the Manage tab, under the Inquiry panel select Warnings.
4. Review the warnings in the model and resolve them.
