

# Practice Exercise 5

## Drawing Sheets

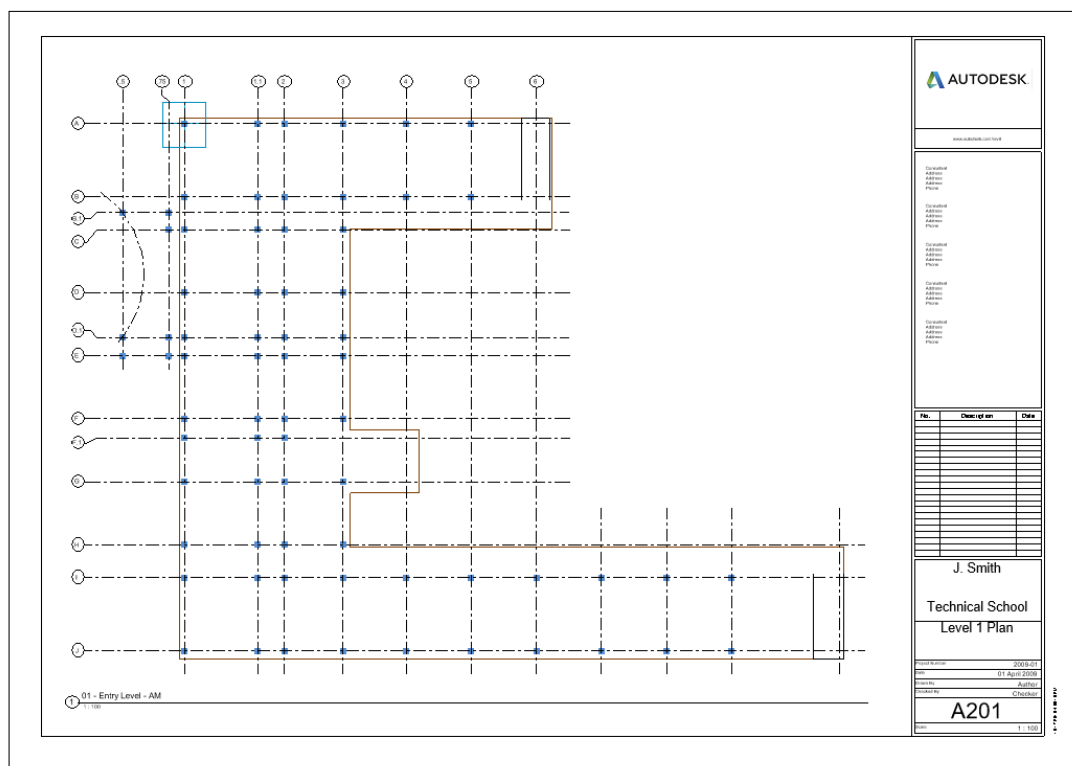

Objective Domains that are covered within this practice exercise are:

- 3.4a Understand sheet issues/revisions
- 4.1g Set up a sheet
- 3.5a Configure export settings

Video resources that may help with this practice exercise are:

- Set up a sheet
- Add revisions to a sheet
- Print and export

The focus of this practice exercise is on the techniques for organizing content on sheets (using the Guide Grid). This includes how to add revisions to sheets (clouds, or by adding sheets as a milestone submission) and different ways to export or print sheets and views.

The following steps need to be completed:

1. Using the **Lesson 05 Sample Project.rvt** model, create 3 new sheets: A201 Level 1 Plan, A202 Level 2 Plan, and A203 Roof Plan.
2. Using a guide grid, align the plans on each sheet.
3. Add two or three revisions and verify that they show up on the sheet.
4. Print a PDF file of all sheets in the model.
