

Solution: Practice Exercise 7

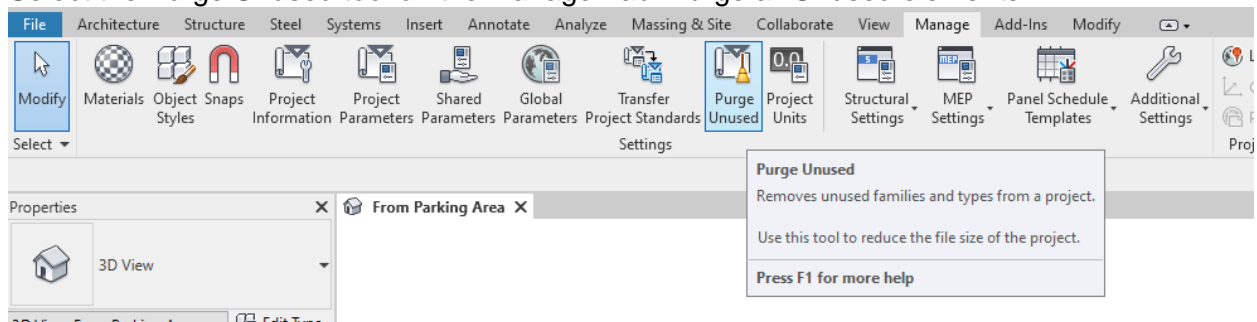

Model Management

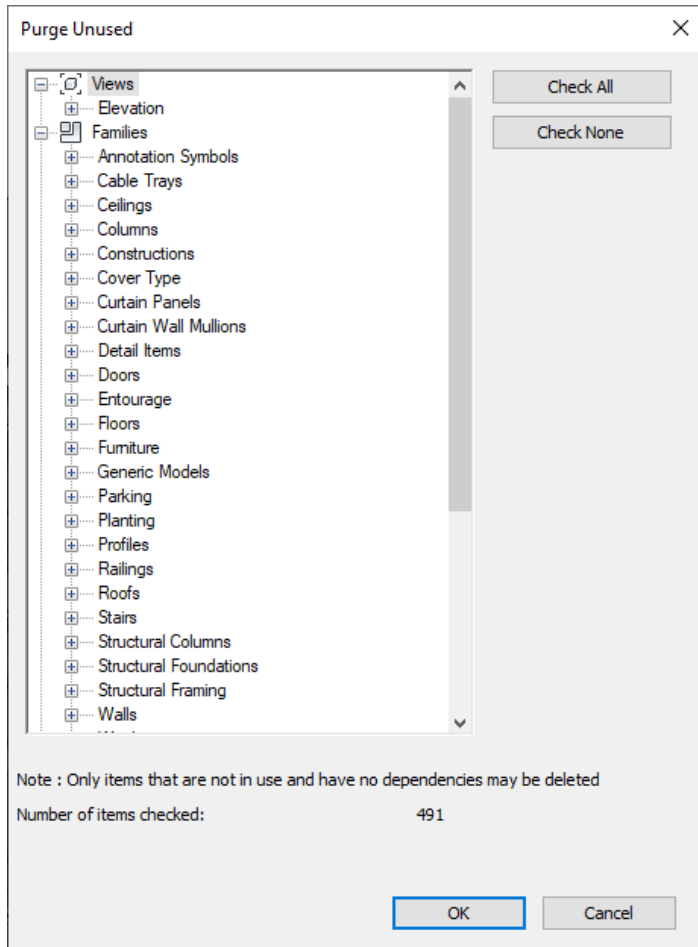

1. Open the file Lesson 07 - Model Management.rvt and make sure that the Audit checkbox is clicked. Accept the Audit Warning.

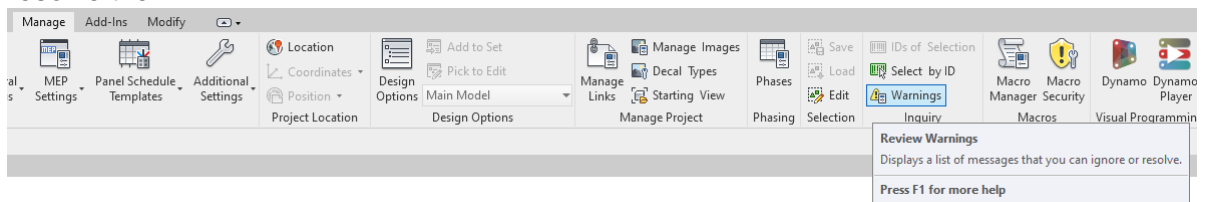

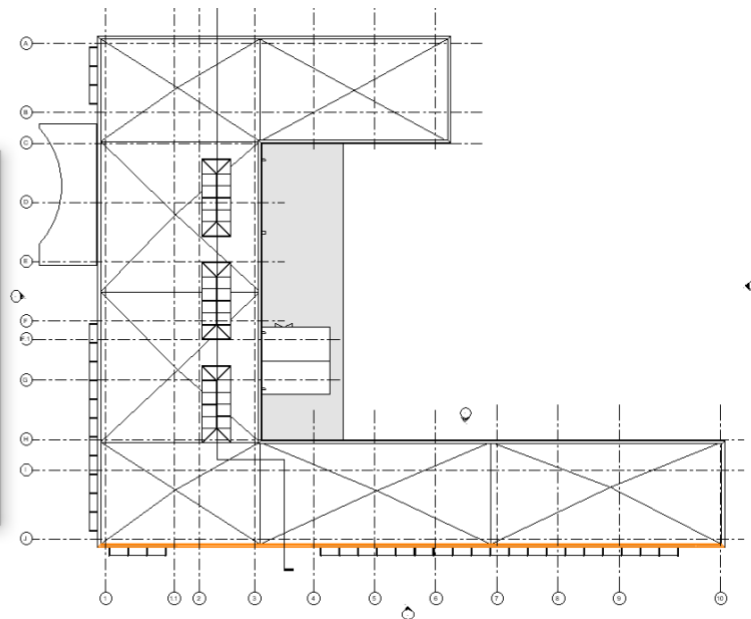

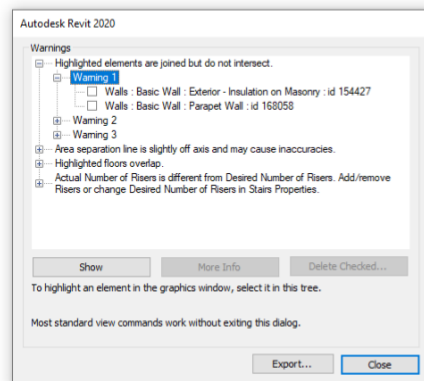

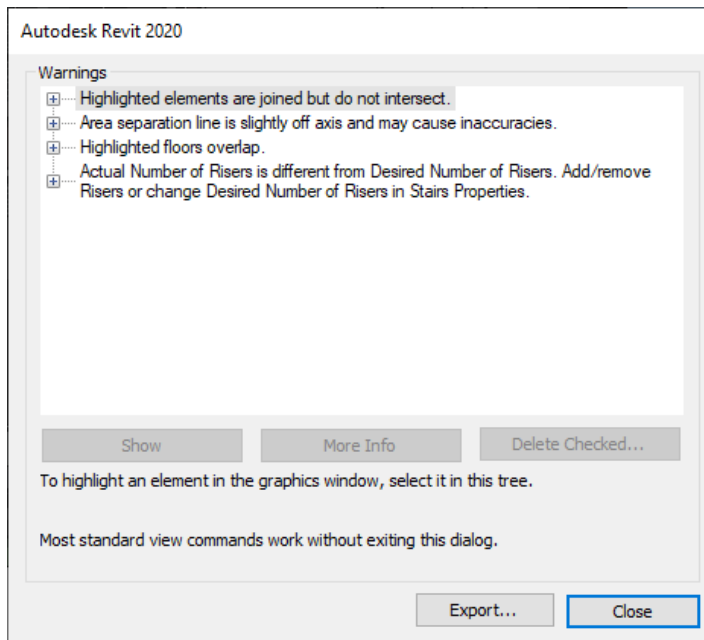

2. Select the Purge Unused tool on the Manage Tab. Purge all Unused elements.

3. On the Manage Tab, under the Inquiry panel, select Warnings. Review all warnings and resolve them.

4. When all the warnings have been resolved the Warnings button will be greyed out.
