

Solution: Practice Exercise 6

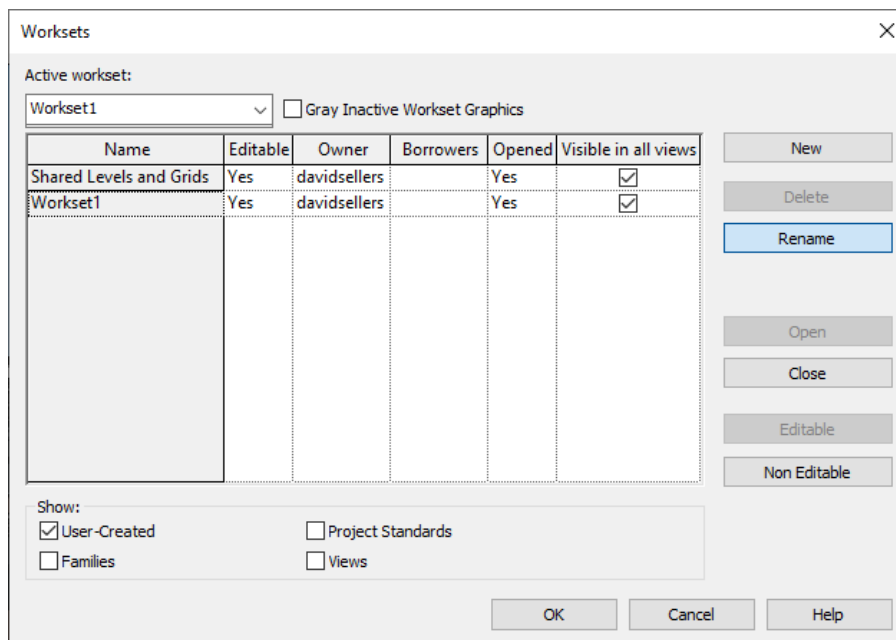

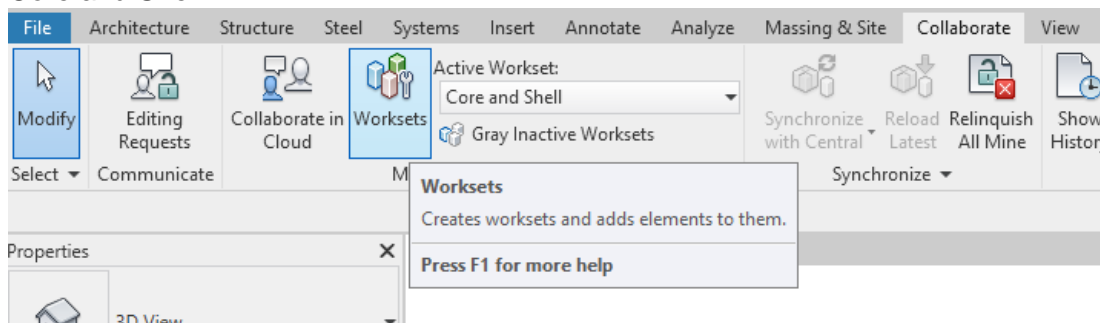

Collaborative Environments

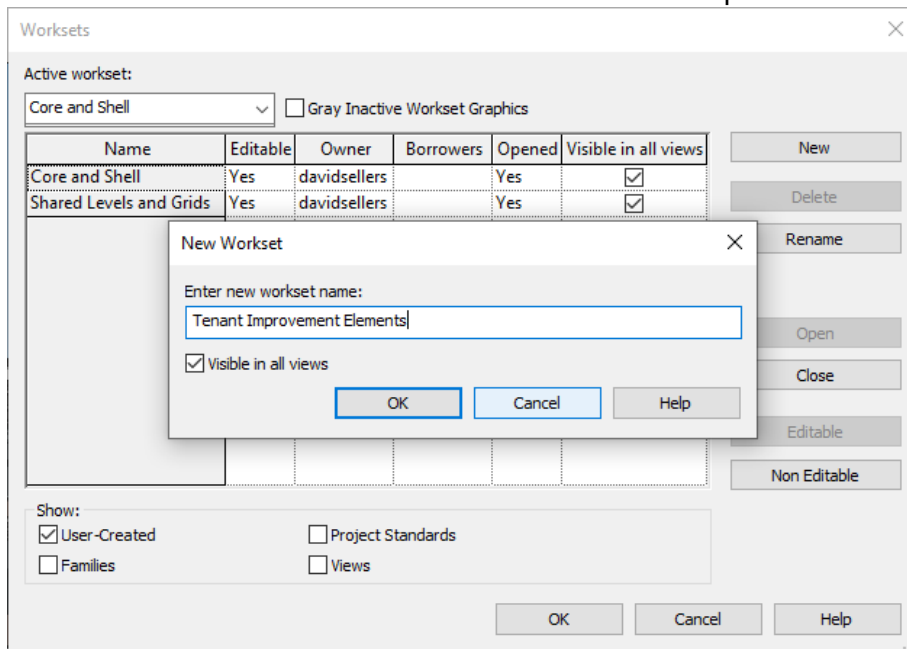

1. Open the file Lesson 06 sample_project-A.rvt
2. Enable Worksharing by clicking the Collaborate button on the Collaborate tab.

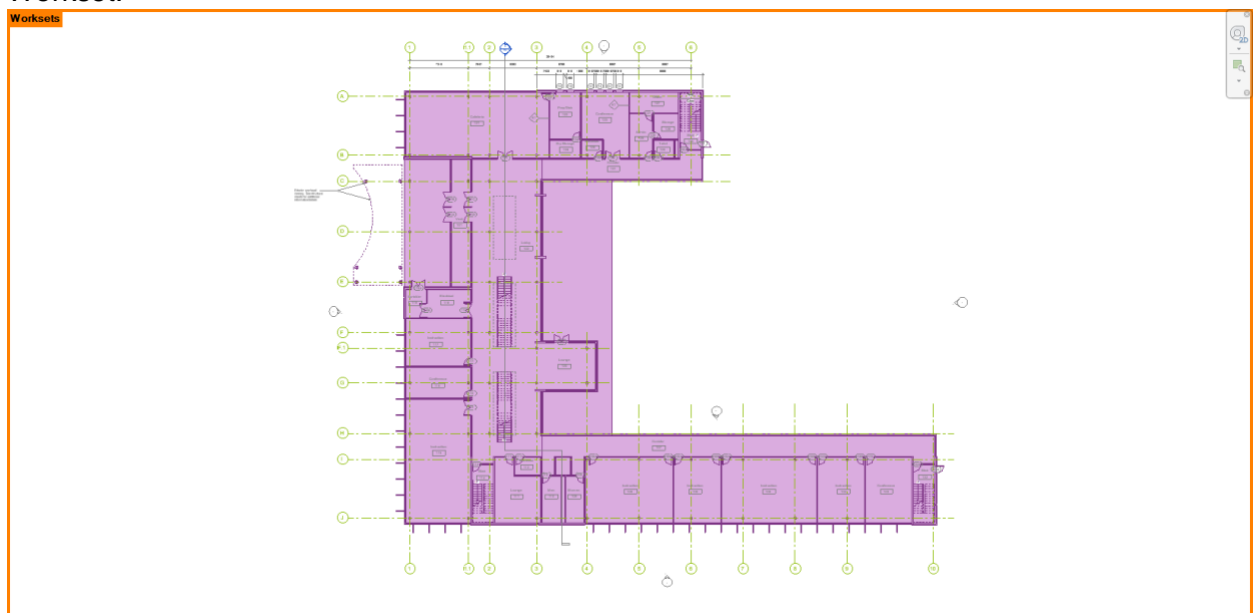

3. Click Worksets to open the Worksets dialog box. Click Rename and rename Workset1 to Core and Shell.

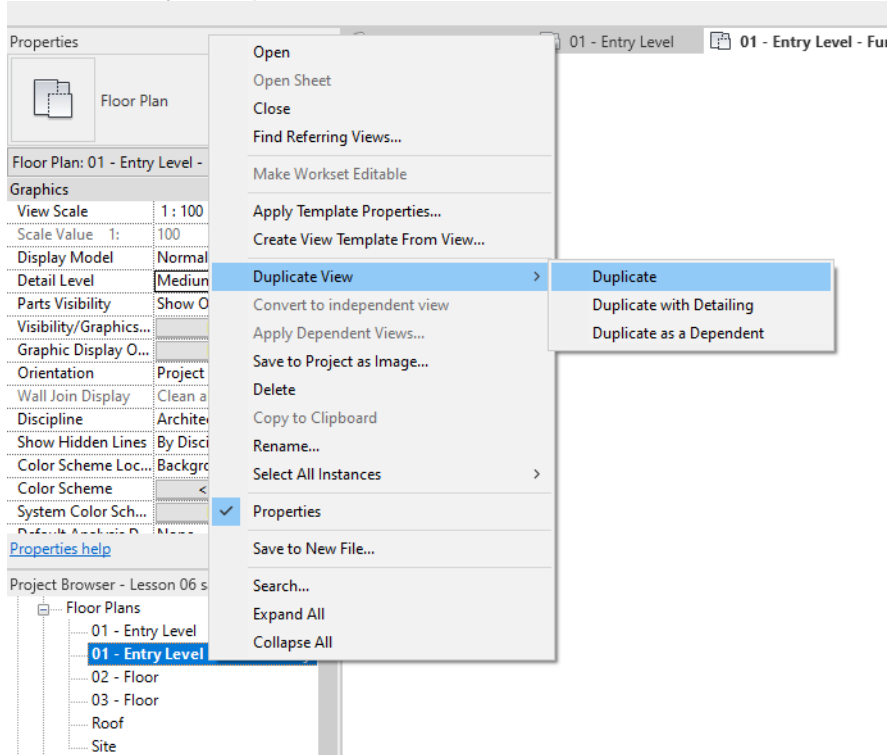

- Click New and create a new Workset named Tenant Improvement Elements.

- Assign all interior walls, doors, windows, ceilings etc. to this Workset. This does not include walls associated with the stairs, sprinkler room, and electrical room.
- Use the Workset Visibility Tool to verify that the appropriate elements are on the correct Workset.

7. Duplicate the 01 – Entry Level – Furniture Layout view and name it 01 - Entry Level - Furniture Layout Option 2.

8. In Cafeteria 121 create two design options for the table layout. Option 1 is already created on the 01 - Entry Level - Furniture Layout view. A second option should be created that provides more seating.
